

INSTRUCTIONS:

A. Registry Application: The record owner (or lessee) of the dam at the time of the foaling is responsible for the registration of the foal and will be listed on the registration certificate as the foal's first owner.

B. Payment: Fee must accompany the application. See page 7 for payment forms.

C. Print clearly in ink or type only.

For complete information concerning rules and regulations, refer to the International Kerry Bog Pony Association Registry Rules & Regulations which are available upon request, free of charge, by writing IKBPA or visiting our website at www.InternationalKerryBog.org

REGISTRATION FEES:

(fill in the appropriate circle below)

All foals must be DNA tested before registration can be completed. Registration fees outlined below include DNA testing.

	Members	Non-Members
Within 6 months of foaling	<input type="radio"/> \$60	<input type="radio"/> \$100
Between 6 to 12 months after foaling	<input type="radio"/> \$80	<input type="radio"/> \$120
Older than 1 year of age	<input type="radio"/> \$100	<input type="radio"/> \$140
Coat Color Testing Fee	<input type="radio"/> \$30 per color	<input type="radio"/> \$50 per color

COAT COLOR TESTING:

Check box for desired test.

(This is optional since not every pony will possess these colors. However, the IKBPA does encourage owners to test their foals to help establish a database on how color is produced in the Kerry Bog bloodstock.)

- Agouti** (identifies if pony possesses 1 or 2 copies of the gene for the bay coloring- black points concentrating on legs, mane/tail, and tips of ears)
- Cream Dilution** (identifies if pony possesses 1 or 2 copies of the gene for the coloring of palomino/cremello, buckskin/perlino, or smokey black/smokey cream)
- Dun** (identifies if pony possesses 1 or 2 copies of the gene for dun- zebra stripes on lack of legs and line along the dorsal)
- Gray** (identifies if pony possesses 1 or 2 copies of the gene for gray- foals will turn gray with age)
- Leopard Complex** (identifies if pony possesses 1 or 2 copies of the gene for the varnish roan or blanket appaloosa look)
- Red Factor** (defines the base coat colors of chestnut or black; identifies if pony is either homozygous black or a carrier of red (chestnut) pigment)
- Roan Zygoty** (identifies if pony possesses 1 or 2 copies of the gene for roaning- white and colored hairs intermixed throughout the body while the head, lower legs, mane and tail remain colored)
- Tobiano** (identifies if pony possesses 1 or 2 copies of the tobiano (painted/broken colour) gene)

OWNER'S CERTIFICATE:

By submitting this application and accepting the benefits of transacting business with the IKBPA Registry, I hereby subject myself to all the provisions of the by-laws, and registry rules of The International Kerry Bog Pony Association, LLC., as they now exist or may from time to time be amended, knowledge of which I now have or will acquire. I agree to be bound by the IKBPA's Rules and Regulations of the Registry, which are available from the Registry.

I hereby certify the below parentage and other information are correct to the best of my knowledge and belief, and recognize that I may be subject to sanctions if I violate the Registry's Rules and Regulations or impair the reliability of the records of the IKBPA.

Signature of owner(s) or lessee(s) of the Pony at the time of foaling.

(Multiple ownership requires all owners to sign every application.)

REGISTRATION APPLICATION:

Step 1: Provide A Name Choice

- A complete name that has been previously recorded for a registered Kerry Bog Pony cannot be used.
- A previously used name followed by "Second," "Third," or "Junior," etc., cannot be used.
- Numerical symbols cannot be used in the name of a horse.
- The Registrar may refuse to accept a name that they deem to be confusingly similar to a name or prefix previously recorded or to be otherwise unsuitable.

First Name Choice: _____

Alternative Name Choice: _____

Step 2: Gender

Check the box for the following sex of your pony.

Stallion Mare Gelding- Date Gelded _____ / _____ / _____
(day/month/year)

Step 3: Record Date of Birth

Date of Foaling (day/month/year): _____ / _____ / _____

Is the foal being registered a twin? Yes No

Step 4: Parentage

Sire: _____ Registration Number: _____

Dam: _____ Registration Number: _____

Method of Breeding: (circle what applies)

Pasture Breeding	Hand Breeding	A.I. on the Farm
Fresh Cooled Semen	Frozen Semen	Embryo Transfer

Step 5: Coat Color

- If you know for sure what the coat color of your foal is, please indicate here.
 - Check only one color from the list.
 - If unsure of the coat color, please complete a coat color test in the section above. The results will be noted on the foal's pedigree.
- I am unsure of my foal's coat color and have checked the suspected colors in the "COAT COLOR TESTING" section.
 - Bay (shades from reddish tan to dark mahogany brown. Black mane, tail, ear tips, and below the knees and hocks.)
 - Black (true black without any light areas.)
 - Brown (black with light auburn areas at muzzle, eyes, flanks, and inside of legs.)
 - Buckskin (golden tan to bronze. Black mane, tail, ear tips, and below knees and hocks.)
 - Chestnut (shades from golden red to dark reddish brown. Mane, tail, and legs are the color of the body or shades lighter or darker. Dark chestnuts may look black with the exception of red hairs on the coronet, pasterns, and/or back of fetlocks.)
 - Cremello (ivory colored coat in shades from very light to darker cream color. Mane and tail are ivory or flaxen. Light pinkish skin and blue or bluish green eyes.)
 - Palomino (shades of very pale creamy yellow to golden yellow, with flaxen, silver, or white mane and tail.)
 - Perlino (ivory colored coat in shades from very light to darker cream color. Mane and tail may be slightly darker than body. Light pinkish skin and blue or bluish green eyes. Points may be darker than its body.)
 - Smokey Black (varying shades of black. May appear to have a black or brown body. Can be difficult to distinguish from black, dun, chestnut, or brown.)
 - Smokey Cream (ivory colored coat, with or without black overtones. This result is from two cream dilution genes on a black base horse.)

Check any coat characteristics you know may apply:

- Dun (zebra striping on back of legs & one dorsal stripe down the back)
- Gray (coat eventually going gray & ultimately silver white in adulthood)
- Flaxen (blonde or white mane & tail on a chestnut coat)
- Leopard (aka "Varnish Roan", may have light roaning on face, back & flanks, may have light to heavy white blanket on the top of rump, may have black spots in the white. White skin pigmentation may be found around nostrils, mouth, & genitalia)
- Roan (white hairs dispersed throughout body, mixing with the base coat)
- Tobiano (aka "Broken Colour", patches of white throughout body)

Step 6: Eye Color

- Please check the box for the foal's appropriate eye color.
- Check only one, unless your horse has different colored eyes. If your horse has different colored eyes, indicate left and right.

Brown Blue Amber Other (please specify): _____

Step 8: Markings

The Marking Key Code is as follows:

HEAD

Star: A white mark on the forehead, located above the line running from eye to eye.

Strip: A white marking extending from the line of the running down the bridge of nose to nostril.

Snip: A white or flesh mark between the nostrils or on the upper or lower lip.

Blaze: A star and strip combined that is more than half as wide as the face at eye level and includes both nostrils.

Bald Face: A wide blaze that extends to or around the eyes or nostrils, with most of the upper lip also being white.

FEET

Heel: A white marking found on the back of the foot.

Coronet: A white marking extending to approximately 1 inch above the hoof.

Pastern: A white marking extending to the top of the pastern.

Fetlock: A white marking extending to the top of the fetlock (ankle).

Sock: A white marking extending to midway on the cannon.

Stocking: A white marking extending above midway on the cannon.

BODY

Blanket: Large white area covering the top rear section. (For ponies with Leopard gene only)

Spots: Black or dark pigmented spots located within white.

Roan Spots: Areas of white hairs mixed into the basic coat color that does not have underlying pink skin.

Ben dór Spots: Randomly distributed small to large spots or color that range from a couple of shades darker than the base coat to almost black.

Please describe white markings (and include whorls/cowlicks):

Head:

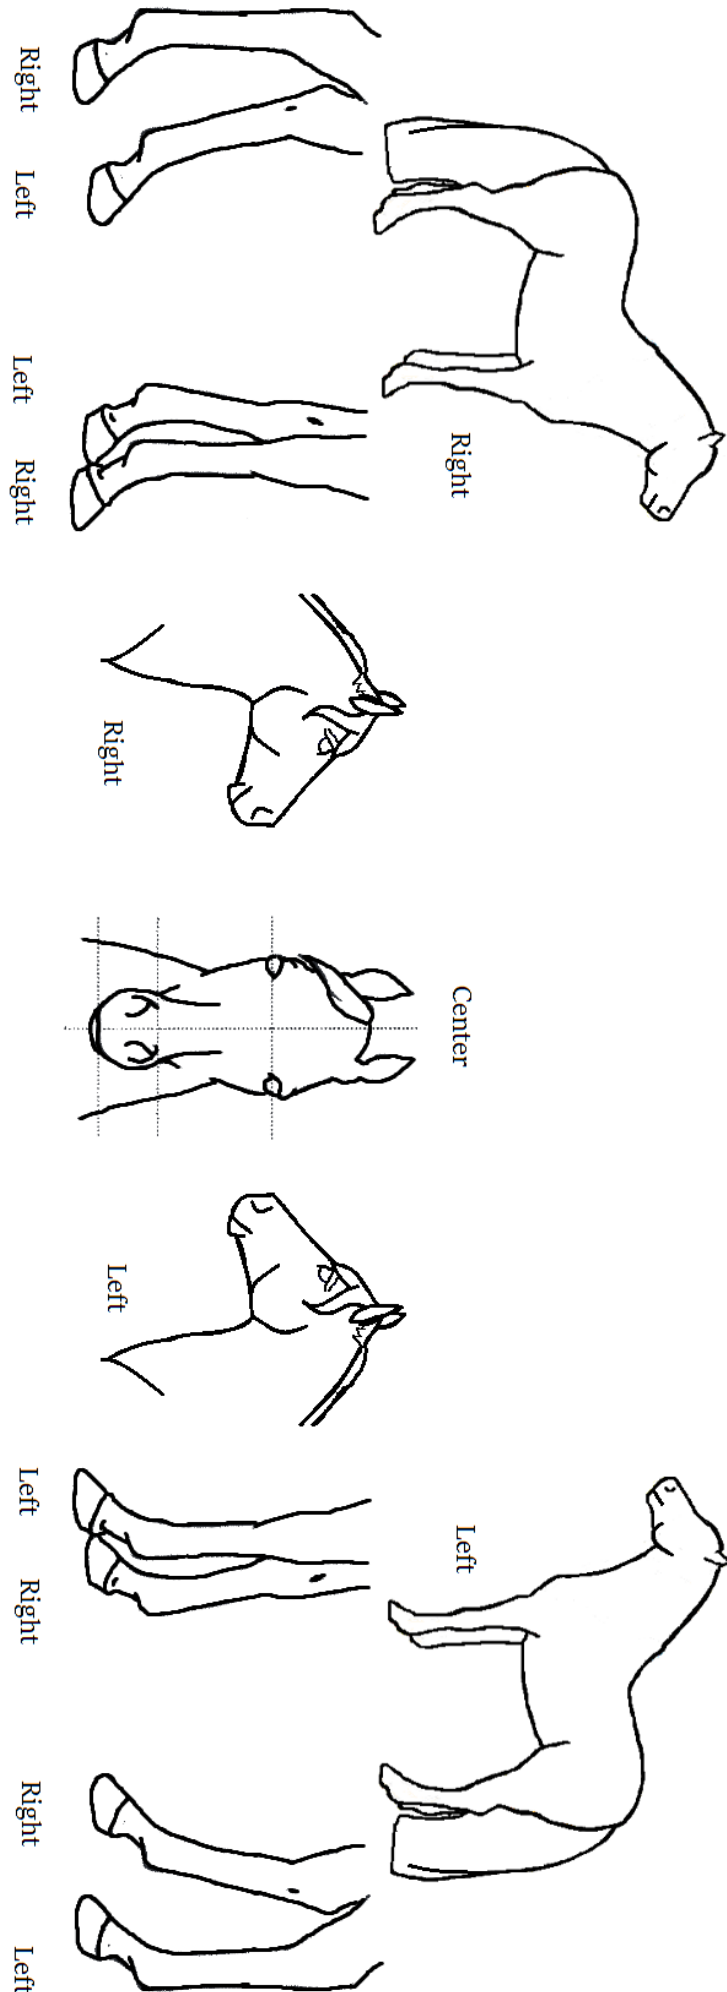

Feet:

Body:

Markings Chart:

- Outline all of the markings of the pony being registered.
- Draw white markings in red pen, do NOT use pencil
- Do NOT use white-out.
- If the pony has any whorls/cowlicks, please indicate them with an X on the markings sheet.
- Include any scars or brands that may be helpful in identifying the pony and identify them using black pen.
- Complete the diagram with the pony in front of you. Do not complete it by memory.
- Clear photographs may help speed processing, especially if the pony has any unusual markings.

Check here if the foal has no white markings or any distinguishing features.

DNA APPLICATION

All new blood/DNA records will be tested against blood/DNA on record to confirm breed alleles and parentage.
*This is also encouraged for ponies with dual registration in the event that the pony produces offspring, per parent verification against the resulting foals.

I understand that upon receipt of this application and the appropriate fee, the DNA testing kit and form will be sent directly to the owner for the owner's certified veterinarian to complete (unless otherwise requested below). I understand that the DNA report is the exclusive property of the International Kerry Bog Pony Association.

X _____
Signature of Owner(s) or Lessee(s)

The Kit will be mailed to the Primary Owner's listed address. Unless specified here:

Telephone Number: _____
(Country Code)

METHOD OF PAYMENT:

- Check or Money Order made payable to:
"International Kerry Bog Pony Association", "Int. Kerry Bog Pony Assoc.", or "The IKBPA"
- Send payment to PayPal account: registry@internationalkerrybog.org
Amount: _____

Please send payment and completed form to the Registrar Headquarters at:
